JEFFERSON CLUB BANQUET

William J. Bryan the Guest of Chicago
Democrats.

Chicago, Jan. 9.—The standpoints from which the aristocrat and the Democrat view society and its activities formed the theme of a speech delivered here by William J. Bryan. Mr. Bryan was the chief guest at the Jackson day banquet of the Jefferson club, a Democratic organization. Prominent party men from several Western states were present, the occasion being generally regarded as the formal opening of Mr. Bryan's campaign for the Democratic nomination for the presidency at the Denver convention next June. Other speakers besides Mr. Bryan were Adlai Stevenson, former vice president of the United States, Bloomington, Ill.; United States Senator W. J. Stone, Missouri; John W. Kern, Indiana, and Edgar Lee Masters, Chicago. United States Senator Jefferson Davis of Arkansas was scheduled for a speech but was not present. Despite this hiatus in the programme the proceedings were so lengthy that it was past midnight before Mr. Bryan was called upon to speak.

Iowa Attorney a Suicide.

HEINZE UNABLE TO PAY

LOSES CONTROL OF THE MERCANTILE NATIONAL BANK.

BACK TO FORMER OWNERS

Gould Interests Again Acquire Majority of Stock in the Institution, Which the Copper Magnate Purchased a Year Ago.

New York, Jan. 9.—Being unable to meet payments due on his stock in the institution, F. Augustus Heinze lost control of the Mercantile National bank, the conduct of which as its president had brought about his arraignment in the United States circuit court earlier in the day on charges of over-certification of checks.

One year ago Heinze bought a controlling interest from the Goulds, with whom he pledged his holdings as security for his promise to pay for them in full within one year. This loan of \$1,200,000 was due to Edwin Gould and William Nelson Cromwell, who was a member of the Gould party in the bank before the Mercantile was added to the Heinze-Morse-Thomas chain of financial houses. Up to the last moment allowed him, Heinze struggled to meet his obligations and so to retain his banking interests. His failure was chronicled in the following statement issued by Mr. Cromwell after a conference of the parties concerned:

The Heinze stock in the Mercantile National bank has been acquired by Mr. Gould in a satisfactory arrangement. Mr. Heinze was given every possible chance to pay for the stock, but because of his inability to do so in the time agreed upon we have been forced to take it over.

Heinze Directors Will Retire.

Later Mr. Cromwell added that the Gould interests would assume their proper place in the bank board at the meeting on Jan. 14. This implies, of course, that the so-called Heinze directors will then retire.

Heinze, who is now under bail consequent upon an indictment by the federal grand jury on a charge of over-certifying checks of his brother's brokerage firm involving \$460,000, was arraigned before Justice Chatfield. A plea of not guilty was entered and permission was had to alter or withdraw it, or to make any other desired motions later. An adjournment of the case was ordered until Jan. 20, when the final plea will be made. The bail of \$50,000 was continued.

It was reported that other men equally as prominent as Heinze in Wall street operations were to be called before the federal authorities to plead to similar indictments. Who they are or when their arrests are to be expected could not be learned at the United States district attorney's office. It is known that the grand jury is not yet through with its inquiry into certain banking conditions exposed by the recent financial flurry. United States District Attorney Stimson, who was seen after Heinze's arraignment, said:

"It would be improper for me to reveal the evidence I have lest I give my case away, but I can say that the investigation is not yet over." Upon leaving the federal building Heinze had nothing to say, further than that he would not leave the city until a disposition of his case had been made.

OPERATIONS OF BLACK HAND

Cleveland Declared to Be a Center for Them.

Cleveland, Jan. 9.—That Cleveland is a center of so-called "Black Hand" operations is the declaration made by eighteen detectives from several important cities in the United States now here searching the city for members of that organization. Chief A. J. Humphrey of Baltimore, who is trying to extradite John Scalata, wanted in Baltimore on a charge of dynamiting, has seven men with him, and officers from Buffalo, Syracuse, Harrisburg, Pittsburgh, New York and Wheeling are assisting the Baltimore official.

The wholesale manufacture of explosives, it is exclaimed, has been conducted in Cleveland by Black Hand men.

The police claim to have obtained information showing that several hundred "dangerous Italians" lately have found asylum here.

Through the secret service it is claimed it has been learned that let-

ters demanding large sums of money have been received by local wealthy Italians. Arrests are expected within a few days.

Heavy Gales in France.

Paris, Jan. 9.—Heavy gales prevail in the north of France and in the channel. Telegraphic and telephone communication with London is suspended and messages to Germany and Belgium are greatly delayed. A number of fishing vessels and coasters are reported ashore.

IN HIS OWN BEHALF.

John R. Walsh on the Witness Stand in Chicago.

Chicago, Jan. 9.—John R. Walsh in his first public explanation of the affairs of the Chicago National bank since its closing by national bank examiners, took the witness stand in the United States district court to defend himself against charges of misappropriating funds of the institution.

He admitted that he had personally engineered the loans of millions of dollars to the railroads and other enterprises in which he held large blocks of stock. He also acknowledged that the system of memorandum notes used in the bank was his.

He denied, however, that he undertook these transactions with any thought of personal gain, claiming that the interests of the bank and its allied institutions, the Equitable Trust company and the Home Savings bank, were his chief concern.

Mr. Walsh was on the stand four hours. Direct examination of the witness was still in progress when court adjourned for the day.

The expectation that Mr. Walsh would testify drew a large crowd to the courtroom and every seat was filled soon after he took the stand. Although he has been one of Chicago's leading citizens for years he has appeared in public comparatively few times and has seldom, if ever, spoken in public. This was evident when the questioning began, for his replies were given in so low a tone that they were scarcely audible to the attorneys and he was admonished to speak louder several times by his own counsel. With this exception the witness gave little indication of either his seventy years or the strain of the long trial.

THOUSANDS BECOME ILL.

Strange Malady Attacks People of Lansing, Mich.

Lansing, Mich., Jan. 9.—Whether from the flight of bacilli over the city, from deleterious matter in the city water, or from some other unknown cause, Lansing was seized by a strange malady some time during the night, thousands being suddenly stricken with extreme nausea, accompanied by acute intestinal troubles.

From midnight until morning and all during the forenoon calls for physicians were incessant. Many dragged themselves to doctors' offices for treatment. Whole families were stricken.

Two boys were found lying in the street too ill to make further progress.

The disease, which most physicians attribute to atmospheric conditions, yielded readily to treatment.

Fifty city teachers and hundreds of pupils were kept away from school. All the stores were short of help.

Among the old and feeble or very young persons serious conditions have developed, but no fatalities have so far resulted in consequence of the strange epidemic.

RENT STRIKERS JOYOUS.

Many Landlords Settle With Their Tenants.

New York, Jan. 9.—The gloom of the rent strikers was turned to joy when the large number of evictions threatened by the landlords when they had warrants issued, seemed to dwindle materially. It was difficult to get marshals to handle those that were issued. They said they were busy with other things.

Many landlords, too, settled with their tenants rather than pay the cost of their eviction, and many tenants, frightened by the action of the court, agreed to accept smaller reductions than those first demanded. Many cases were compromised in this way.

In other cases tenants paid up the full amount demanded, but there were few of these cases, and in most instances it was the landlords who yielded.

Thirty-six settlements were reported at Socialist headquarters. The concessions in these cases varied from 50 cents to \$2.

SAYS CONFLICT IS CERTAIN

French Professor Declares United States and Japan Will Clash.

Paris, Jan. 9.—The sensational section of the French press continues to dwell upon the probability of a clash between Japan and the United States. La Presse publishes a long interview with Jacques Flach, the historian and professor in the College of France, who declares his belief that a conflict is certain for the reason that Japan seeks war. He advises the American fleet to be on the watch for a sudden Japanese descent and asks:

"Who knows if the attack made by the Japanese on the Russian ships at Chemulpo will not be repeated upon the American ships tomorrow?"

Continuing, M. Flach advises Great Britain and France to intervene and put an end to the trouble before it is too late.

The Journal Des Debats, a more conservative paper, believes that if a clash should come Japan would try to seize Hawaii as the territorial key to the situation.

HOUSE CURRENCY BILL.

Provides Plan for Insuring Deposits in Banks.

Atlanta, Ga., Jan. 9.—Of the nearly 100 persons who received injuries in the wreck of the Colver special on the Southern railway near Hiram, Ga., about a score are still confined to hospitals in this city, but it is believed all will eventually recover. At the Atlanta sanitarium it was said Miss Emma Hoover, who received internal injuries, was resting easy, though her condition is very serious. The condition of Miss Studebaker of Cleveland, who was reported probably fatally injured, was resting easy, though her condition is very serious. The condition of Miss Studebaker of Cleveland, who was reported probably fatally injured, was resting easy, though her condition is very serious.

The state railroad commission has begun an investigation of the wreck and will endeavor to place the responsibility for it.

Many of those who received only slight bruises and cuts continued their journeys to Florida and Cuban points, while others decided to return to their homes.

The plan provides for a fund of \$500,000,000 for the guaranty of both deposits and outstanding bank notes of every national bank.

Election Frauds at Duluth.

Duluth Jan. 9.—As a result of wholesale "repeating" at the primary election which was held here Dec. 17, last, five indictments were returned by the grand jury against Benjamin Vail, a barkeeper at the St. James hotel in this city, charging him with having induced a number of men to vote fraudulently. It is hinted that there are a number of other indictments out, but as service has not yet been made the names are not given.

The transfer took place when Sheriff Thomas J. O'Neill, who was dismissed by Judge Dunne, went out of office and Sheriff-Elect Lawrence J. Dolan was installed.

Many landlords, too, settled with their tenants rather than pay the cost of their eviction, and many tenants, frightened by the action of the court, agreed to accept smaller reductions than those first demanded. About thirty men were laid off by Parker & Topping last night because of lack of orders from the railroad company. It is rumored that one of the officials of the company who was here a day or two ago stated that there would be no increase in orders for at least two months. No men have yet been laid off in the shops since the strike was settled.

The remains of Mrs. J. A. Armstrong, of Bemidji, were brought to this city today for burial. Mrs. Armstrong died Tuesday morning of childbirth. She

was a daughter of Peter Highland, of East Brainerd. The funeral will take place tomorrow forenoon at 10:30 from the residence of her brother-in-law, Alvin Gustafson, 815 Walker street, with interment at Evergreen cemetery.

W. H. Gemmell, in speaking of DeWolf Hopper's presentation of Happyland, which he saw in St. Paul last week says it is the best thing he has seen in a year. Senator Alderman, who saw it in Minneapolis a few days ago speaks equally highly of it. The troupe came in from Duluth this noon. There has been a good advance sale and the prospects are for a well filled house.

THE MONEY QUESTION.

An Inquisitive Youngster and an Ingenious Father.

"Papa," began Gunston junior, "when the government of the United States began to coin gold and silver money it was necessary to buy the gold and silver, wasn't it?"

"Yes, my son," replied Gunston senior rather cautiously.

"Of course, papa," resumed the youngster, "you'll be able to tell me where the government got the money to buy the gold and silver."

"Why—er—of course," stammered Gunston senior as he put down the paper and gazed thoughtfully at the boy.

"Now, let me understand you. The government wanted to coin money, and in order to do so it was necessary to purchase gold and silver. You want to know where the government got the money to buy the gold and silver?"

"That's right," chuckled Gunston junior gleefully, and a great joy filled his being as he thought of his all important sire struggling with the simple question.

"Yes," said Gunston junior. "Where did the government get money to buy paper for the dollar bills?"—Harper's Weekly.

THE HORSE WON.

Beat the First Locomotive on the B. and O. Road.

The first locomotive on the Baltimore and Ohio had sails attached. So did the cars. These sails were hoisted when the wind was in the right direction so as to help the locomotive.

The rivalry between the railroads using locomotives and those using horses was very bitter. In August, 1830, an actual trial of speed was held between a horse and one of the pioneer locomotives, which did not result in favor of the locomotive. The race was on the Baltimore and Ohio, the locomotive being one built by Peter Cooper, who also acted as engineer.

The horse, a gallant gray, was in the habit of pulling a car on a track parallel to that used by the locomotive. At first the gray had the better of the race, but when he was a quarter of a mile ahead Mr. Cooper succeeded in getting up enough steam to pass the horse amid terrific applause.

At that moment a band slipped from a pulley, and, though Mr. Cooper lacerated his hands trying to replace it, the engine stopped and the horse passed it and came in the winner."—Van Den Magazine.

They Don't Like Funerals.

"If you want to know just how sensitive some Washington folks are, listen to the reasons some of our tenants give for canceling their leases," said a renting agent. "Here are the complaints from five families who want to move because they live on funeral streets." A lot of people, it seems, are sensitive about that. There are certain streets in town—those near churches where many funerals are held and those leading to the various cemeteries—which are usually traveled by funeral parties. Houses in those streets are becoming a poor investment.

There is more moving from those houses than from any others we have anything to do with, and generally the movers give as the reason for their dissatisfaction the fact that the sight of so many hearses gets on their nerves."

Messrs. Waller and G. Nesheim has moved their sawing rig to Albert Roll's at Gravel lake, and will soon be able to turn out lumber for him.

A SUBSCRIBER.

SENTENCE TO PRISON SHIP.

One Declared to Be Usually Enough for Worst of Sailors.

"The serving of one sentence aboard a prison ship is usually enough for the worst of sailors," said L. H. Dunlavy recently. "The prisoners are locked at night in the forward and after berth decks. They are compelled to work every day except Sunday in the navy yard too.

"It gives them a chance to let out their voices when the hymns are being sung. Their working hours are from 6:30 to 1 o'clock in the afternoon. That isn't all they have to do. They are required to attend a school. The common branches only are taught. The recitations are held at night. From 6 to 7 o'clock at night is the daily study hour and they have to study too.

"A marine guard of eighty men 'police' the ship and do sentry work over the prisoners while they are at work. Ordinarily there are about 250 prisoners on the ship. Very few escape. Occasionally one tries to run by the sentries, but it's a big risk, for marines carry rifles loaded with ball and have orders to shoot any prisoner attempting to get away."—Kansas City Star.

The Saragossans.

It is said that the queer, composite race of people that dwell upon the waterlogged hulls of the Saragossa sea, in the mid-Atlantic, have a pretty theory about death. They believe that those to whom the messenger comes when the sun is shining brightly are transported straight away to a heaven of warm fresh water only four feet in depth, in which they may wade and disport themselves to all eternity. On the other hand, those who receive the call of death in hours of darkness must needs endure a probationary period before they can enter into the future life. The Saragossans are in addition firm believers in premonitions, omens and foreordinations.

TRIED TO KILL F. COPPERSMITH

Cass Lake Man Attempted to Shoot up Brakeman Copper-smith Friday Night

MAN WAS ARRESTED AT ONCE

Sheriff Bailey Grabbed Man's Arm and Jerked Gun Aside Saving Coppersmith

Brakeman Frank Coppersmith had a narrow escape from death while on the trip north Wednesday night. Three men got on at Bemidji, one of whom, according to the report brought down by the train crew today, has been working in a drug store in Cass Lake. The Cass Lake man was smoking a cigarette in the first-class coach when Coppersmith asked him to quit. He became abusive but finally quit, making threats to shoot Frank before leaving the train. Several times after going into the smoke he tried to pick a quarrel but Mr. Coppersmith evaded trouble. Sheriff Bailey, who had heard the man's threats while in the other car, had followed him, accompanied by his son who is his deputy, and was sitting behind the fellow when he raised up and thrust a revolver in Mr. Coppersmith's face. Just as he pulled the trigger Sheriff Bailey jerked his arm up and the bullet went through the roof of the coach. The two other fellows attempted to assist their friend but the sight of Mr. Bailey's star subdued them. The man who did the shooting, however, made a stiff fight and it took two men to take him off the train at Northome. He was kept at Northome over night and was brought back to Bemidji by Sheriff Bailey this morning. It is reported that when he was arrested letters were found on him from two convicts in the Stillwater penitentiary. The charge of attempted murder will be placed against him. His name could not be learned from the train men.

Arrangements for Funeral of Late George Frost Held Awaiting Arrival of Relatives

No arrangements have yet been made for the funeral or burial of the late George Frost, nor will there be any made until the arrival of his mother, Mrs. Harriet Frost and his sister, Mrs. Wm. Hewitt, of Louisville, Ky., who are expected here Friday. Mrs. Frost states, however, that her husband will be buried in Brainerd unless his mother wishes the remains taken to his old home in Ft. Wayne, Indiana, where his father and sister are buried.

George Frost was born in England, it is thought at Welton, and was 58 years old on November 9th, 1907. He came to America with his parents when but a child, living in Michigan and Ohio, and later at Ft. Wayne, Indiana, where his father, Benjamin Frost, died about ten years ago. After leaving home Mr. Frost spent some years in the west mining afterwards railroading, and has been a resident of Crow Wing county about twenty years and has owned and resided on a farm at Hellensburg for the past fourteen years.

He was married on June 2, 1897, to Anna Ostlund, who with two daughters, Helen and Georgia, survive him. He also leaves besides his mother, three brothers and two sisters. The brothers are Benjamin Frost, Hale, Michigan; James Frost, formerly of Brainerd, but now of Biggs, Cal.; and Charles Frost, of Tower, Mich. The sisters are Mrs. Harriet Clark, of Los Angeles, Cal.; and Mrs. Wm. Hewitt, of Louisville, Ky.

Miss Helma Ostlund, a sister of Mrs. Frost arrived from Minneapolis last night to attend the funeral.

Mr. Frost was a member of the Elks and a social member member of the Emily camp of Modern Woodman. It is thought that the Elks will have charge of the funeral.

Striving and Failing.
Life is not designed to minister to man's vanity. He goes upon his long business most of the time with a hanging head and all the time like a blind child. Full of rewards and pleasures as it is—so that to see the day break or the moon rise or to meet a friend or to hear the dinner call when he is hungry fills him with surprising joys—this world is yet for him no abiding city. Friendships fall through, health falls, weariness assails him, year after year he must thumb the hardly varying record of his own weakness and folly. It is a friendly process of detachment. When the time comes that he should go there need be few illusions left about himself. "Here lies one who meant well, tried a little, failed much"—surely that may be his epitaph, of which he need not be ashamed.—Robert Louis Stevenson.

"Finally I cried out, 'Can't you keep anything on your stomach, man?'

"Only my hands, George," he groaned; "only my hands!"

WANT HIGH PRICES FOR THEIR LAND

Aitkin County Land Owners Want Fancy Prices Around Sandy Lake

APPRAISERS MET AT AITKIN

Wednesday and Heard Arguments of Land Owners as to Land Values

The commission to appraise the lands desired by the United States for reservation purposes, which met here Monday met in Aitkin Wednesday. They had a very short and peaceful session here, only one or two property owners appearing before them. Times were strenuous at Aitkin, however. The land owners around Sandy Lake are evidently trying to build the market. They want \$25 per acre it is said for land 40 miles from the railway. This the appraisers are inclined to think is too high. The commission is in need of some data which is in the U. S. engineer's office at St. Paul, and Mr. Davenport, the engineer in attendance returned to the city to procure it. The commission will meet in Brainerd again Monday to complete its work after securing the needed data.

MARRIAGE IS SUCCESSFUL

Many More Licenses Than Divorces Were Granted in This County Last Year

That marriage is a success would seem to be proven by the records of Crow Wing county despite the fact that in the month of March there were five divorces and no marriage licenses granted. The figures for the entire year put an entirely different face on the matter. There were according to the judgment record of the district court 18 divorces granted while the marriage record in the office of the clerk of the court shows 140 marriage licenses issued during the year.

ELECTED EIGHT NEW DIRECTORS

The Commercial Club Holds Annual Meeting and Transact Considerable Business

NO CHANGE IN CLUB LOCATION

The Committee to Solicit Funds will Begin an Active Campaign at Once

The annual meeting of the Commercial Club Wednesday evening was well attended. The principal business of the evening was the election of eight new directors, the following gentlemen being chosen: H. I. Cohen, G. D. LaBar, F. A. Farrar, J. L. Camp, R. R. Wise, Jud Wright, W. D. McKay, H. L. Jones. The board of directors has a membership of sixteen, eight of whom are elected yearly and for the information of the public the names of the hold-over members are given as follows: Edward Crust, M. E. Ryan, Dr. W. Hemstead, J. M. Elder, Dr. Courtney, I. U. White, W. H. Cleary, H. F. Michael.

The new board of directors will meet on Wednesday evening, January 15th, for the purpose of organizing and the election of officers of the club for the ensuing year.

The name of W. H. Gemmell was presented for membership and on motion the rules were suspended and he was elected a member of the club.

President Hemstead announced that he had appointed Mayor R. R. Wise and Senator Alderman as a committee to represent the club at the meeting of commercial clubs in St. Paul.

A resolution from the Portland commercial club was read and referred to the committee on legislation.

The house entertainment committee reported on the offer of the John Coates Liquor Co., recommending that the offer be not accepted, which report was adopted by the club. The offer was made to rent the room in the Imperial block next to the Coates Liquor Co. to the club for \$200 per year. The report of the committee stated that in their opinion the room was not suitable for the purpose and not as desirable as the present location. The lease on the present rooms does not expire until some time in June and the acceptance of the proposition would mean the payment of double rental for the period of five months at least. The owner of the present quarters has agreed to cut the rent \$5 per month on a renewal of the lease for three years, and as the present rooms are now well lighted and heated, and are conveniently located it seemed to be the sentiment of the club that a change in location was not desired, for the present at least.

The secretary was instructed to procure a new lock and keys of a sufficient quantity to supply the members, owing to the fact that at present some of the keys are now in the hands of parties who have no rights to the privileges of the rooms and especially to the exclusion of members who desire to use the billiard and pool tables.

The committee appointed to canvass the membership for the purpose of ascertaining how much money could be raised for the maintenance of the club reported that the work was about to be taken up, and that the delay had been occasioned in order that the rooms might be in perfect condition before they approached the members on the subject. Now that the steam had been connected and the rooms were warm and comfortable at all times the matter was to be taken up at once.

A few other matters of minor importance were considered and the meeting adjourned.

REMOVE THE CAUSE

How to Remedy Much of the Suffering in Brainerd

There is hardly a family in Brainerd where there are not one or more members who suffer at times from the effects of a weak stomach.

It may be that this occurs only after eating some food that does not agree, or because of a supper late at night; or it may be that the stomach is so weak that scarcely any food can be eaten without pain and distress.

The only way to treat a condition of this kind successfully is with Mi-o-na tablets. It removes the cause of indigestion, weakness of the muscles of the stomach and bowels, and restores the whole digestive system to health and strength so that it takes care of all the food that is eaten.

Get well and strong by using Mi-o-na tablets. Take the remedy at the first symptom of indigestion, when you can be cured easily with a few doses. However, no case of stomach trouble is too severe or chronic for Mi-o-na to overcome.

H. P. Dunn sells it under an absolute guarantee to refund the money unless it cures. A 50 cent box lasts for a couple of weeks, and will do more real good than a dozen boxes of the ordinary digestive tablets.

TRIED TO KILL F. COPPERSMITH

Cass Lake Man Attempted to Shoot up Brakeman Copper-smith Friday Night

MAN WAS ARRESTED AT ONCE

Sheriff Bailey Grabbed Man's Arm and Jerked Gun Aside Saving Coppersmith

Brakeman Frank Coppersmith had a narrow escape from death while on the trip north Wednesday night. Three men got on at Bemidji, one of whom, according to the report brought down by the train crew today, has been working in a drug store in Cass Lake. The Cass Lake man was smoking a cigarette in the first-class coach when Coppersmith asked him to quit. He became abusive but finally quit, making threats to shoot Frank before leaving the train. Several times after going into the smoker he tried to pick a quarrel but Mr. Coppersmith evaded trouble. Sheriff Bailey, who had heard the man's threats while in the other car, had followed him, accompanied by his son who is his deputy, and was sitting behind the fellow when he raised up and thrust a revolver in Mr. Coppersmith's face. Just as he pulled the trigger Sheriff Bailey jerked his arm up and the bullet went through the roof of the coach. The two other fellows attempted to assist their friend but the sight of Mr. Bailey's star subdued them. The man who did the shooting, however, made a stiff fight and it took two men to take him off the train at Northome. He was kept at Northome over night and was brought back to Bemidji by Sheriff Bailey this morning. It is reported that when he was arrested letters were found on him from two convicts in the Stillwater penitentiary. The charge of attempted murder will be placed against him. His name could not be learned from the train men.

NO ARRANGEMENTS YET

Arrangements for Funeral of Late George Frost Held Awaiting Arrival of Relatives

No arrangements have yet been made for the funeral or burial of the late George Frost, nor will there be any made until the arrival of his mother, Mrs. Harriet Frost and his sister, Mrs. Wm. Hewitt, of Louisville, Ky., who are expected here Friday. Mrs. Frost states, however, that her husband will be buried in Brainerd unless his mother wishes the remains taken to his old home in Ft. Wayne, Indiana, where his father and sister are buried.

George Frost was born in England, it is thought at Welton, and was 58 years old on November 9th, 1907. He came to America with his parents when but a child, living in Michigan and Ohio, and later at Ft. Wayne, Indiana, where his father, Benjamin Frost, died about ten years ago. After leaving home Mr. Frost spent some years in the west mining afterwards railroading, and has been a resident of Crow Wing county about twenty years and has owned and resided on a farm at Hellensburg for the past fourteen years.

He was married on June 2, 1897, to Anna Ostlund, who with two daughters, Helen and Georgia, survive him. He also leaves besides his mother, three brothers and two sisters. The brothers are Benjamin Frost, Hale, Michigan; James Frost, formerly of Brainerd, but now of Biggs, Cal.; and Charles Frost, of Tower, Mich. The sisters are Mrs. Harriet Clark, of Los Angeles, Cal.; and Mrs. Wm. Hewitt, of Louisville, Ky.

Miss Helma Ostlund, a sister of Mrs. Frost arrived from Minneapolis last night to attend the funeral.

Mr. Frost was a member of the Elks and a social member member of the Emily camp of Modern Woodman. It is thought that the Elks will have charge of the funeral.

Deserts of Asia.

Just north of the Himalaya mountain range in Chinese Turkestan lies a belt of land which is watered by north flowing rivers. These, however, do not flow anywhere, but lose themselves in the sand of the desert.

The worst deserts of America are mere child's play to the desert conditions in this part of Asia. In many places there were formerly one thousand or two thousand years ago a condition of soil and climate so that they could support a considerable population. There are the remains of villages and even cities, which must have had water in large quantities in places now far distant from any reliable source of supply. So dry is the country that ruins of wooden houses which have been exposed to the weather for ten centuries or more have hardly the beginnings of decay.

"Left, Mr. Goodman, left," corrected the bride with a proud look at the sinewy athlete by her side. "George is a southpaw, you know."

The False and the True.

"You need not be so critical," said the person accused. "You say I have a vinegary disposition, but every one knows you have one too."

"I acknowledge it," retorts the accused, "but mine is a genuine pure cider vinegar disposition, while yours is the commercial compound of sulphuric acid and water."—Kansas City Independent.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fife one of the Editorial Staff of THE ELECTRIC MEDICAL REVIEW says of Unison root (*Hedionia Diocia*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a tonic invigorator . . . makes for normal activity in the entire reproductive system." He continues: "Hedionia we have a medication which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fife further says: "The following are among the leading indications for Unison root: Pain or aching in the back, with aching, spasmodic (weak) condition of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sense of heat in the region of the kidneys, membranes, blood vessels due to a weakened condition of the reproductive system; amenorrhea, suppressed or absent menstruation; periods arising from or accompanying an abnormal condition of the digestive organs and a hectic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can afford to be without Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unison root, or Hedionia, and the medicinal properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions . . . and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

OIL FOR RICH, BLACK HAIR.

Product of Olive Accounts for Beauty of Glossy Tresses.

Returning recently from South America, Mrs. W. S. Cowles, wife of the rear admiral, announced she had discovered why Spanish-American women had hair of such gloss and blackness—glossier than their cousins of old Spain, as a rule, and of a richer black. Olive oil, said Mrs. Cowles.

She learned in the course of her subsequent journeying that ninety-nine Latin beauties in every hundred oiled their hair with the unctuous product of the olive, and that the habit accounted for the beauty of their tresses. It was easy to understand, she remarked, that olive oil darkened the locks, and no one familiar with its nourishing qualities would wonder that it gave new strength to the hair.

Olive oil is new to North Americans as a hair tonic, though other kinds were used even by men until soap attained its present popularity. Carl Formes, the basso—he was christened Karl, but changed the spelling so he might sign his name with musical notes for the initials—used to anoint his coal-colored mane nightly with kerosene.

It wasn't the most fastidious habit in the world, perhaps, but it kept him black-haired to an advanced age—in fact, it made the hue of his hair outlast the vigor of his voice. "Black Jack" Logan, the Union army's great cavalry general, was suspected of oiling his hair with the same kind of crude fluid, but his most intimate friends always denied it—New York Press.

CORNISH TREASURE TROVE.

Buried Gold Found by Farmer Claimed by the Duxby.

Mr. De Castro Glubb, Coroner, held an inquest at Liskeard Guild hall recently on thirty-one gold coins found buried in Trembray farm yard near the town. The Coroner stated that no similar inquiry had been held in Cornwall for at least 100 years.

If the jury found that the coins were treasure trove, he said, they would be claimed by the Duchy of Cornwall, who, no doubt, would deal generously with the finder, as was the practice of the Crown. James Croker Govett, son of the owner of the farm, described how he found the coins while cleaning the farmyard.

His mother's family, he said, had owned the farm for many years, and he produced a document dated July 13, 1745, relating to the finding of 55 1/2 guineas in the floor of the barn of John Crocker and Dorothy, his wife. Mr. Volk, jeweler of Liskeard, said many of the coins were rare. Eight were Portuguese milrels, dated 1682 to 1725. The remainder were English, the most ancient being three gold units or 20s pieces of James I. and Charles I., while the rest were guinea pieces dating from 1680 to 1725.

The jury, of which hte mayor (Ald. Bone) was foreman, found that the coins were treasure trove, and the coroner handed them to the finder. Subsequently they were claimed by Alexander Webster, steward of the duchy of Cornwall, and the matter will be laid before the next meeting of the duchy.—London Standard.

Deer in the Foothills.

Just now the deer are all down in the foothills, following their usual custom, and reports from the outlying districts show them to be in greater number than usual, says the Anaconda (Mont.) Standard.

Almost invariably the deer get out of the snow as early in the spring as possible and come to the lower lands to fawn, following the green grass and the snow line back into the mountains as the summer progresses.

This was also the habit of the Rocky Mountain sheep when that animal was found in abundance in some of the Montana valleys, but of late years few have been seen in the lowlands, although it is an undisputed fact that the number in Southern Montana has greatly increased during recent years.

Bee Culture in Germany.

Germany has taken great interest in bee culture of recent years and the crop is about 20,000 tons a year. Spain is a close second of the European countries.

RECEIVERS APPOINTED

Chicago Great Western Road in Financial Trouble.

UNABLE TO OBTAIN MONEY

Company Could Not Raise Funds to Meet Obligations Falling Due This Year—Action Decided Upon at Meeting in London.

St. Paul, Jan. 9.—Judge Walter N. Sanborn of the United States circuit court appointed A. B. Stickney, president of the Chicago Great Western railroad, and Charles H. F. Smith, both residents of St. Paul, receivers for the Chicago Great Western railroad. A. B. Stickney is now the president of the road. The firm of Kellogg & Severance of St. Paul was appointed attorneys for the receivers.

The appointment of receivers followed the inability of the company to raise money to meet obligations falling due in 1908, and the failure to secure an extension of the obligations. Loss to the road as a result of the boilermakers' strike of last fall is

estimated at \$1,000,000.

ELLIOTT UNDER ARREST.

Brakeman Involved in Murder Case Surrenders to Police.

Boston, Jan. 9.—Frederick W. Elliott, aged twenty-two years, a Boston and Albany brakeman whose home is in Auburndale, Mass., and who was wanted on a charge of being an accessory after the fact to the murder of Mrs. Helen A. Whitmore, whose nude body was found in the Lamp Black swamp at Harrison, N. J., Dec. 26, appeared at police headquarters and gave himself up. It is expected Elliott will consent to go to New Jersey without requisition papers. When seen by newspaper men, he said he was not going to tell them all he knew, but that he was willing to tell Prosecuting Attorney Vickers all he knew of the Whitmores. He admits that he knew the Whitmores, but says that he had not seen them for two years until the day after Christmas, when he called at their house in Brooklyn to get back a gold locket which he left in 1905 as security for a debt he owed Whitmore, with whom he boarded for some months when employed on the Interborough railway. He said that he found Whitmore in his home on the day following Christmas and that the motorman did not act strangely. When he asked him where his wife was he says Whitmore replied:

"Oh, she's gone away; she's left me."

ARRESTED ON SUSPICION.

Italian Truck Farmer May Have Murdered Four People.

Florence, Colo., Jan. 9.—Anton Bavori, an Italian truck farmer, is under arrest on suspicion of killing three persons and perhaps four. Mrs. Frank Palmetto, Dominic and Joseph Minchelli, brothers, and Ercola Buffetti are missing. Portions of human bodies were found near the Arkansas river, and it is feared that all four of the missing people have been murdered and their bodies cut up and thrown into the river.

An axe covered with blood, found in his hut, and the statement of a Mexican washerwoman that she washed for Bavori a suit of clothes which was literally covered with blood, are some of the clews that point to Bavori.

Robbery and revenge are believed to be the motives of the suspected murderer.

Priest Heir to a Fortune.

St. Joseph, Mo., Jan. 9.—Father Charles F. Kearful, for nearly forty years a Catholic priest in Missouri and Kansas, has been notified by the state department at Washington that he is heir to a fortune of \$500,000 left by his uncle, Karl Kirkfogel, a prominent wool merchant, who died recently in Sydney, Australia. Father Kearful will start at once for Sydney.

Three Hundred Lives Lost.

Victoria, B. C., Jan. 9.—Mail advices from South China tell of a terrible fire at Canton, where 300 lives were lost in the burning of a restaurant.

TELEGRAPHIC BREVITIES.

Clarence Darrow, the Chicago attorney, who is in Los Angeles, is recovering from his illness.

Ex-Governor Horace Boles of Iowa, who has been ill with pneumonia at a hospital in El Paso, Tex., is now regarded as completely out of danger.

Peter Steele, traveling chairman of the Brotherhood of Railway Trainmen, is dead at Ottawa, Can., from injuries received by being run over by a street car.

Fire at Springfield, Ill., gutted a three-story brick building owned by William B. Baker and occupied by Scoville & Co. as a furniture store. Loss, \$70,000.

The receivership will be temporary pending the time required to carry through the plan of financing the road. Everything possible has been done to avoid a receivership, but it could not be prevented.

AT MEETING IN LONDON.

Noteholders Decide to Appoint Receiver for Railroad.

London, Jan. 9.—The expected meeting of the noteholders of the Chicago Great Western Railway company with A. B. Stickney, president of the company, was held here. It was decided to appoint a receiver for the company, to maintain the status quo during the time necessary to prepare a first mortgage bond covering all the indebtedness of the road and to obtain a vote of the stockholders on this measure.

There were many noteholders at the meeting.

Subsequent to the meeting the following notification was issued by the London agency of the company:

"At a meeting of some of the holders of the Chicago Great Western railway notes, which mature shortly, the president of the company announced that in order to maintain the status quo it had been decided by the London finance committee that application should be made to a United States court for the creation of a temporary receivership until such time as the company shall have obtained authorization from its stockholders for the issue of first mortgage bonds to an amount sufficient to finance its requirements."

Mr. Stickney, addressing the noteholders, explained the circumstances of the railroad. He dwelt upon the financial conditions in America, which interfere with the payment of the 5 per cent notes that mature during this present year.

The decision of the finance committee met with the approval of the noteholders.

HALF OF JURY CHOSEN

Six Men Permanently Selected to Try Harry Thaw.

DEFENSE SPRINGS SURPRISE

Announces That Jerome's Expert Witnesses in Former Trial Have Been Subpoenaed by Thaw—Move Will Hamper Prosecution.

New York, Jan. 9.—The work of securing a jury to try Harry K. Thaw a second time for killing Stanford White was half complete when the original venire of 300 special service jurors was exhausted and court adjourned without holding the customary night sitting. Two hundred additional talesmen have been ordered to report and the task of seeking satisfactory trial jurors will be resumed. The oath of service was administered to three more men, making six in all who have been finally accepted. Three provisional jurors were also in the box at the close of the day's session, but they are still subject to peremptory challenges.

Another series of these arbitrary removals reduced the panel when all twelve seats had been filled, and six chairs were left vacant when it was finished. The defense has now exercised eleven of its thirty challenges, and the prosecution eight.

The sworn jurors in their respective positions are:

Charles E. Gremmels, ship broker; foreman; Arthur R. Naethong, baker; George W. Cary, dry goods; George C. Rupprecht, salesman; John H. Hobart, mineral waters; David E. Arrowsmith, manager.

The provisional jurors are William McAdie, salesman; George M. Mette, drugs, and James S. Davidson, clerk.

The plan of maintaining both permanent and temporary jurors in the trial panel until twelve men have finally been selected for service is unique in the New York courts, and has imposed a double duty upon the guards, who are directed nightly to keep the sworn jurors and the provisional ones separate.

Burden of Proof May Fall on Jerome.

In the selection of the jury Martin W. Littleton, Thaw's senior counsel, is so conducting his examination of talesmen as to impress upon them that the defense introduce evidence tending to show that Thaw was insane at the time of the Madison Square roof garden tragedy the burden of proof will fall upon the shoulders of the district attorney and he must prove beyond all reasonable doubts that the defendant was legally insane. This principle of law was not so clearly enunciated at the former trial.

Thaw's attorneys furnished the first surprise of this trial by admitting that several of the expert witnesses who were retained by the district attorney for the first trial, and who declared when Mr. Jerome made application for a lunacy commission that in their opinion Thaw was so insane as not to know the nature of the proceedings against him and was entirely incapable of intelligently advising with his counsel, are now under subpoena by the defense.

They made affidavit that in their opinion Thaw was suffering at the time of the inquiry from an incurable form of insanity. These same doctors, however, previously testified on the witness stand, in response to Mr. Jerome's famous hypothetical question, that they believed Thaw knew what he was about when he shot and killed Stanford White. This move, it is said, is intended by the defense to block the prosecution's putting the doctors on the stand and it is taken by some as showing a determination not to have Thaw convicted even with the danger of a stay in the asylum for the criminal insane at Matteawan as the alternative.

Their Absence Noted.

The alienists who were the mainstay of the prosecution at the first trial were Doctors William Mabon, Carlos MacDonald and Austin Flint. They were present at the former hearing from the very

Deserts of Asia.

Just north of the Himalaya mountain range in Chinese Turkestan lies a belt of land which is watered by north flowing rivers. These, however, do not flow anywhere, but lose themselves in the sand of the desert.

The worst deserts of America are mere child's play to the desert conditions in this part of Asia. In many places there were formerly one thousand or two thousand years ago a condition of soil and climate so that they could support a considerable population. There are the remains of villages and even cities, which must have had water in large quantities in places now far distant from any reliable source of supply. So dry is the country that ruins of wooden houses which have been exposed to the weather for ten centuries or more have hardly the beginnings of decay.

He Was a Southpaw.

The preacher was offering his felicitations to the newly married couple, says the Chicago Tribune.

"Young man," he said, "you have gained one of the fairest maidens in the community, and you, young lady, have won a stalwart partner, whose good right arm will level every obstacle that stands in the way of your success in life."

"Left, Mr. Goodman, left," corrected the bride with a proud look at the sinewy athlete by her side. "George is a southpaw, you know."

Cures Woman's Weaknesses.

We refer to that boor to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fife one of the Editorial Staff of THE ELECTRIC MEDICAL REVIEW says of Unicorn root (*Helonias Diotica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine tonic and makes for normal activity of the entire reproductive system." He continues "In helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seen that a cure is soon which does not present some indication for this remedial agent." Dr. Fife further says: "The following are among the leading indications for helonias (Unicorn root). Pain or aching in the back, with leucorrhoea; atonic (weak) condition of the reproductive organs; uterine debility, and debility, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; anæmia, debility, depression, or absent monthly periods; pain from or accompanying an abnormal condition of the digestive organs and bladder (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or helonias, and the medicinal properties of which it most faithfully represents.

RECEIVERS APPOINTED

Chicago Great Western Road in Financial Trouble.

UNABLE TO OBTAIN MONEY

Company Could Not Raise Funds to Meet Obligations Falling Due This Year—Action Decided Upon at Meeting in London.

St. Paul, Jan. 9.—Judge Walter N. Sanborn of the United States circuit court appointed A. B. Stickney, president of the Chicago Great Western railroad, and Charles H. F. Smith, both residents of St. Paul, receivers for the Chicago Great Western railroad. A. B. Stickney is now the president of the road. The firm of Kellogg & Severance of St. Paul was appointed attorneys for the receivers.

The appointment of receivers followed the inability of the company to raise money to meet obligations falling due in 1908, and the failure to secure an extension of the obligations. Loss to the road as a result of the boilermakers' strike of last fall is

given as a partial cause for the financial straits of the road. It was also pointed out in the court proceedings that during the past ten years the road has spent \$19,000,000 in reconstruction.

The petition for a receivership was filed on behalf of the stockholders and the finance committee by John A. Numberg of Minnesota, George P. Meyer of New York and Ward Cummings and Alexander Wallace of Great Britain.

Statement by Attorney Kellogg.

Stiles W. Burr of St. Paul appeared as attorney of record for the complainants, and Frank B. Kellogg of St. Paul made a statement to the court of the condition of the road and the grounds on which a receivership was asked.

As soon as the petition for the complaint had been filed, an answer was filed on behalf of the board of directors, who met and voted to become a party to the receivership proceedings.

In asking for the appointment of receivers, Mr. Kellogg said that the capital of the Chicago Great Western consists of four classes of stock, but two of which need be considered in the receivership proceedings. These are the preferred A and the debenture stock, each of which originally represented 50 per cent of the original first mortgage bonds issued.

The preferences of these two classes of stock are secured by a trust deed to the Manhattan Trust company of New York. There will be a default in the payment of these obligations, Jan. 15, said Mr. Kellogg.

The receivership will be temporary pending the time required to carry through the plan of financing the road. Everything possible has been done to avoid a receivership, but it could not be prevented.
